Top Photo: December 23, 2014. 2014 SEASON REVIEW – Jeff Bright Steelhead Flyfisher http://www.jeffbright.com was very kind to allow us to post this beautiful pic of a summer-run Steelhead. In the pic Jeff demonstrates an excellent way to pose a fish yet keep it in the water. To learn another position, yet keep the fish in the water please scroll down to the 2014 Season Review section and check out how Josh Buck does it. Well done fellows! If you are interested to hire a fishing guide to learn how, where and when to catch these guys please contact me anytime and I will help make the arrangements for a trip of lifetime. **Skeena River**

Skeena River is divided into four sections:

- **Skeena 1** (non-classified) Exchamsiks River downstream to the ocean.
- **Skeena 2** (class 2 water) Exchamsiks River upstream to 1.5 km above Kalum River.
- **Skeena 3** (non-classified) 1.5 km above the Kalum River upstream to 1.5 km above Zymoetz River.
- **Skeena 4** (class 2 water) 1.5 km above Zymoetz River upstream to the head-waters.

Water is low and very clean and lots of ice floating in stream. Fishing has been good for Steelhead but you have to know where and how to fish for them. You may want to consider hiring a guide to learn how? If so please contact me anytime I will get you set-up with the BEST.

---

On my left is April Vokey of flygal. April is authoring a book summarized as a reflective novel based on the history of our sport, and both its evolution & migration from the United Kingdom to North America’s west coast. She interviewed me September 16th regarding the history of Sportfishing and guiding in northwest British Columbia. The whole interview was recorded by Nick Pujic (on my right) of Vantage Point Media House for a television series on WFN. Got to say we had a lot of fun and it was hard to shut me up! I will keep you updated how this progresses. I am sorry, at this time, I cannot remember the names of the other folks in the crew. I will get them for you later.

As promised here are the names of the rest of the crew: Victor Cooper, Brock Tompkins, Yoshi Aoki, Adrienne Comeau and Catherine Laflamme (who took the photo).

Contact us to book a hotel room or cabin rental any time of the year!

**Kitimat Lodge fishing report** - October 25, 2014

Today was the best day for the river swinging, as the clouds cleared and the snow dusted the mountain tops seen here from the Skeena River in British Columbia.

**Skeena River Fishing Report**
It’s been a rough few days for steelhead fishing, with the high water as you may know. Fishing Skeena country as a paying fly fishing client puts the pressure on us guides! Sitting at the lodge telling stories and tying flies is short lived.
And topping the day is a pair of steelhead swung by Spey anglers. Wow!

With the rivers really shaping up, November will be a bonanza of Lunker Steelhead.

Tight Lines, Tracey Hittel

**Booking 2015 Fishing Charters Now for:**

- Skeena River November Fishing Packages
- 2015 best dates for Kitimat River Coho Salmon
- 2015 Coastal BC Spring Steelhead Fishing
- Multi Rivers for 2015 Chinook Fishing
- Douglas Channel Ocean fishing - Salmon, Halibut, Crab
- 2015 BC whale watching trips and hot spring tours

SEE BELOW for complete [Kitimat Lodge](#) guiding season:

**SPRING STEELHEAD**
Spring Steelhead begins this late March for 6 weeks. If the run of Steelhead was like last year our guests are going to hit pay dirt.

**CHINOOK SALMON**
Starting in May, thru to August, Chinook Salmon we target either by Jetboats or spacious driftboats, on the rivers, or 30ft Aluminum, twin Volvo Diesel, ocean vessel. All our boat are fully equipped with top of the line gear.
**COHO SALMON**
Late July to late September all 5 species of Salmon are in full charge from the ocean to the rivers. We intercept these Salmon either in the Saltwater or small coastal micro streams, using like tackle or fly.

**HALIBUT and CRAB**
May to November is best for Halibut and Dungeness Crab. For 2014 the size limit for Halibut has increased, retaining a 70lb fish, up from the 60lb fish in 2013

**SUMMER - FALL STEELHEAD**
The lower 100 miles of the Skeena and its tributaries are a Steelheaders dream, miles of fly water to chase the elusive steelhead. With our access to Classified waters in Skeena country, this allows us flexibility and tranquility for our customers.

**BOOK SOON** - don't be disappointed:

Skype Address: kitimat_lodge

**Kalum River:**

Water is high and dirty on the lower end but starting to clean up. The upper end is high but clean enough to fish now. I've had my best Steelheading when the water is high. Concentrate fishing on the corners where the current really slows down. Steelhead hold there. Common sense if you were a Steelhead would you want to hold in the fast moving current or slow current? I have had some report of excellent Steelheading
last week. The Spey fly rod is working well. It is just a matter how knowing which pools and runs they are holding in. If you need a guide to show you how and where just contact me anytime.

**Lakelse River:**

The Steelhead fishing is really good in the upper end. Tip: Fly fishing is good technique. Instead of a fly I would use a bright red cocky as I knew the Steelhead were eating the Coho eggs that would escape from the Coho reds. Sometimes in the deeper runs I would tie on a flatfish plug and feed it into the deep pool. I know it is not a fly but no problem as the “fly-only” time is from Mar 1 to May 31. Also in the deeper runs I liked float fishing the corky with a little white wool. My friends and I really liked to fish the upper end this time of year while we waited for the Kalum River levels to drop so we could use our drifts and not have to compete with the jet boats. We would run our drift boats all winter and for many years the Steelhead fishing was simply outstanding and I know it still is. Good luck!

**Zymoetz (Copper) River:**

Water really clean. Steelheading is excellent. If the current weather conditions hold up it should be a GREAT fish on Christmas day and the weekend. When wet fly fishing give the Steelhead a chance to react when the fly comes drifting by. Dry fly works pretty good too. And for conventional here is a Tip: Float fishing the Pink Worm works very well in this river. Need a guide for 2014 in either the Class one or Class two section contact me anytime.

**Douglas Channel:**
Chinook fishing in the channel is basically over as all of the fish have moved into their natal rivers, although one has a chance to catch "feeder springs", these would be smaller fish. Coho fishing is slow; they are all heading for their home rivers...and their home rivers don't have much water in them. Coho are being caught but way down the channel. Halibut and other Bottom fish are being landed in good numbers and lots Dungeness Crab. Now when I say this fishing is good you got to know what to fish with, where to fish and how. Pink and Sockeye are out their too. My suggestion is to book a charter guide for trip or two, then you will be up to speed how to do it on your own.

**Recommended Fly Fishing Gear:**

Courtesy Chad Black Nicholas Dean Outdoors

In the low water conditions of early April, we generally used light sink tips to cover the shallow riffles and tailouts where Steelhead were holding. Type 3 and Type 6 tips were generally all that was needed for most conditions. With the higher flows of late Spring, and in particular on the tributary rivers, we've also been using Rio's MOW tips in a variety of weights and lengths to get the fly down to the fish. The Heavy MOW tips, made of T-14 material, have been particularly useful, in lengths of 5, 7.5, 10 and 12.5 ft.

As with March, best colours have been pink, black, blue and orange. When fishing the Skeena and its tribs, larger flies from 2.5' to 4' in length have been most productive. Smaller flies in a variety of weights in the 1' to 2.5' range have worked the best on coastal rivers.

When targeting Steelhead, we've been using rods in the 12.5' to 13.5' ft range, for a 7 or 8 weight line on the larger rivers. Our personal favourites for this fishing include the 7126 Sage TCX and the 8139 Loomis Dredger. When targeting Chinook specifically, we've been using heavier 9 and 10 weight rods in the 13' to
15’ range. Single hand rods and switch rods have gotten the nod on the coastal rivers. In particular, I had a chance to fish a 8116 Sage One rod and can confirm that it's a very good rod that's ideally suited to the coast!

**Rods, Reels, Lines:** For Steelhead - Spey rods in the 12’ to 14’ range, with a Skagit head to match. A 7126 TCX paired with a 500 grain Skagit Flight and Loomis 8139 Dredger with a 525 grain Skagit are excellent choices. A good quality disc or cork drag reel (e.g. Islander and Ross) with a minimum of 150 yards of 30 lb backing. For Spring Chinook Salmon, same as above, except with heavier gear - 9 weight minimum, 10 weight better.

**Sink Tips and Tippet:** A 15’ Type III and 15’ Type VI for most shallow water applications, and a variety of MOW tips - medium (T-11) and heavy (T-14) for deeper and/or heavier water. Always 15 lb Maxima Ultragreen for Steelhead. Increase tippet to 20 lb Maxima Ultragreen if targeting Spring Chinook.

**Flies:** Idylwilde String Leech, Bunny Tube, Marabou Tube and Popsicle, in shrimp pink, cerise, black, blue and orange.

If you need info to book a pro fishing guide please contact me anytime.

---

**Prince Rupert Ocean Fishing:**

Fish from this Grady White for ALL the bottom fish plus ALL the Salmon, Dungeness Crab and Alaskan King Crab...with a captain who has over 40 years experience. If you are interested to book a charter please contact me anytime for ALL the details.

*Interested in a top notch fishing adventure in 2015?* We have great packages in the best place on earth to catch salmon & halibut.

**Video:**
[Cast here](http://www.avidsportfishing.ca) to watch their NEW Video on YouTube

**FaceBook:**
[https://www.facebook.com/avidsporftfishing](https://www.facebook.com/avidsporftfishing)
Still some really nice fish being caught on the west coast, a late push of nice springs to end another great season of fishing in Haida Gwaii. We are now booking for 2015, reserve your dates while they last!

Fishing for Halibut and Salmon this month has been simply outstanding. Book you charter soon to avoid disappointment.

1-877-770-2843
www.avidsportfishing.ca

Here's our latest addition to the fleet for 2014. That's right we are now operating 2 - 30 foot Kingfisher guide boats. This one is tricked out with all the same options and quality gear as our first boat. Luxury fishing on the West Coast of Haida Gwaii just got even better!

Reserve Your Dates for 2015

We are already over 50% booked and prime dates are going quickly. If you’re thinking about taking the family on a great fishing adventure or looking for a hard core fishing trip with the boys next summer, Avid Sport fishing's all inclusive trips have all bases covered. Round trip airfare from Vancouver, exclusive beachfront lodging and amazing meals combined with BC’s best Chinook salmon fishing and experienced guides make for a “Top Notch” fishing trip that is second to none. Some exciting news for groups that require 2 boats (6 to 8 guests) is the addition of another 30 foot Kingfisher guide boat. This allows us to offer a truly unique experience with 2 of the nicest, most comfortable, most seaworthy and just plain
“fishy” boats in all of Haida Gwaii/Queen Charlotte Islands. Predictions for 2014 Chinook (King) salmon runs look very good with more 4 and 5 year old fish returning meaning bigger average size than in 2013.

Please contact us to discuss dates and join Avid Sportfishing for another season of great fishing, and good times on the West Coast of Haida Gwaii in 2015!

1-877-770-AVID(2843) or fill out our Booking Inquiry Form

**Smithers BC and area fishing report:**

Fishing report for October 26, 2014
After three weeks of marginal water conditions, most rivers are back in shape! Water levels are still fairly high (who would have thought after super low water in September???). Weather forecast is for cooler temperatures which will help all rivers drop even further! Steelhead fishing should be stellar over the next few weeks!

**Fishing report for October 15, 2014**

**Lakes** - Little to no angling pressure on many of the lakes in the Bulkley Valley. Fish are aggressive this time of year and fun to fish for if steelheading is unfeasible.

**Bulkley** - Section below Telkwa is very murky. Upper section is fishing better but has many people, fishing is decent.

**Moric** - River got some much needed water, maybe help bring in some fresher fish. Lots of anglers fishing the cleaner water, having good results.

**Kispiox** - River was dropping but heavy rains are forecasted for that region over the next couple days.

**Babine** - Also got a little bump of much need water. Fishing has been okay for most.
Josh Buck shows us how to pose a Steelhead yet keep in fully in the water. Well done Josh. Josh's Dad, Greg Buck gave us permission to post this pic. FYI - Greg started his fishing guiding career with us in the 1990's. Where has the time gone?
Hey Noel, This weekend was COLD! The steelies still wanted to play, but you had to get your fly through all the ice floating down. This is my 13 year old son, Nathan, with his first steelhead. He got it on his second cast, go figure. Hope the winter treats you well.

Paul Reinhardt, Calgary, AB
Hi Noel, we have been to Terrace this year (group of 3) but we decided to give it a try without a guide. We were fishing Skeena and Copper. We did not do so well but nevertheless it was a good adventure. All in all I caught few steelheads and Coho. You will find few pics attached to this email.

Best regards, Marcin SEJBUK

Hi Folks, first off we would like to sincerely thank Vitalini Renato (above) for his very kind words, "Dear Noel, dreaming of steelhead and thinking a lot to my first trip to BC last April. I crossed your homepage. Pretty great fishing information of the whole area around Terrace! Just to say thanks for your patience and work for this great site!!!"

The Kitimat River Steelhead had a length of 41.5 inches and a girth of 24 inches. Mark of the BC Fish & Wildlife branch estimated the weight around 34.5-pounds. What a GREAT catch Renato...and may we say you are WELCOME BACK anytime!
We would like to thank Paul Reinhardt for sending the beautiful pics and the Tip on what flies were working. Paul says he enjoyed walking and "catch & release" fly-fishing our local rivers.

---

**Guest Photos and captions:**

Brian Ziegler from New Jersey USA sent this pic of his Skeena River Coho landed with Spey rod on Saturday September 6, 2014. It measured 36.5 x 24. WOW! That's one BIG Coho. Thanks for send the pic.
Best regards, Noel

---

**Vintage Video Clips:**

*Zymoetz (Copper) River Steelhead from November 2007*

Another bright one!

Friends Brad Remick (left), Rob Vodola and I fished on the Zymoetz (Copper) River in early November. We had some great fishing! Lasting memories!!
It plays for about 1:00 minute and is a small screen wmv.

**Guest Reports and Photos - 2013 Season Review:**

---

**Past Top Photos**
December 10 to December 23, 2014. 2014 SEASON REVIEW ~ Scott Cameron, guest of Tracey Hittel of Kitimat Lodge, does his very best to pose his Steelhead while keeping it in the water. Not always possible, but kudos to Scott for trying his best. As you may know BC Fish and Wildlife Branch has been pushing anglers to keep their fish in the water (if they plan on releasing them). Washington State implemented a regulation a decade or so ago making it unlawful to remove fish from the water due to the science that’s recently become available which shows that fish lose a percent of survival for every second out of water after landing – a fish out of water for a minute now has less than a 40% chance of survival! Photo credit to their fishing guide Gord McKean. If you are interested to hire a fishing guide to learn how, where and when to catch these guys please contact me anytime and I will help make the arrangements for a trip of lifetime. Cast on photo to view in larger size

December 3 to December 10, 2014. 2014 SEASON REVIEW ~ Photo and caption courtesy of Amber Serbin. "This steelhead was my first of the trip I did last Spring. First day we floated the Kitimat in the pontoons and I hooked into this buck." If you are interested to hire a fishing guide to learn how, where and when to catch these guys please contact me anytime and I will help make the arrangements for a trip of lifetime. Cast on photo to view in larger size
**November 26 to December 3, 2014.** Alright, it's official! First fish as husband/wife yesterday! Sept 8, 2014 made an exception on the grip and grin this time - especially as the grin has been there from the very second I said "I Do"! The bamboo is kicking butt! Thank you for the kind wishes everyone - cheers! ~April Vokey [http://www.flygal.ca](http://www.flygal.ca) If you are interested to hire a fishing guide please [contact me](#) anytime and I will help make the arrangements for a trip of lifetime. **Cast on photo to view in larger size**

![Fish](image1)

**November 19 to November 26, 2014.** Scott Cameron and and his wife Raina pose their beautiful Kitimat River Steelhead landed this spring. Photo credit to their guide [Gord McKean](#). Their guided fishing adventure was organized by [Tracey Hittel](#) of Kitimat Lodge. If you are interested please [contact me](#) anytime and I will help make the arrangements for a trip of lifetime. **Cast on photo to view in larger size**

![Fish](image2)
November 12 to November 19, 2014. Ariel Kuppers, pro fishing guide for Kitimat Lodge helps his Spey fly fishing guest Hiroshi get a memorable pic of his beautiful Steelhead. Kitimat Lodge and their team of fishing guides offer Skeena River November Fishing Packages. If you are interested please contact me anytime and I will help make the arrangements for a trip of lifetime. Cast on photo to view in larger size

It is Time
Hello, As most of you know, I have worked hard to communicate the impact of raising salmon in feedlots among wild salmon through science, the law, government process and activism with you. We have become a great team, we have held the industry back from expanding, but Canada is rewriting its laws so quickly we will loose ground next year.

This week Canada and Mexico voted against the recommendation by a NAFTA commission that Canada's record on protection of wild salmon from farmed salmon be reviewed. The U.S. voted for the audit. Here is the Press Release. This is a very disappointing turn of events, another door slammed shut to resolving this issue.

I am still awaiting the outcome of my legal challenge with Ecojustice last June, whether the industry can continue transferring diseased salmon into their ocean pens, which is pure biological madness, the courts have not made a decision.

In honour of all that we have done to resolve this issue, it is now time to speak to the people behind farmed salmon, the consumer. Step one is a series of ads designed by a top ad firm. $60,000 have been pledged by two businessmen if I can raise the rest. I can see it is time this industry no longer be allowed to exist alone in the world of consumer advertising. Effective ads cost a lot of money, there is no way around this. This is not a matter of pulling on gumboots, or walking shoes. Please consider donating, no matter how small and "sharing" and tweeting my blog post to your friends who are concerned about the food they eat, the whales dying on the BC coast and their children's future. Please visit my blog to see the first image and to donate.
http://alexandramorton.typepad.com/alexandra_morton/2014/12/time-t.html

Thank you all, I am wishing you a warm holiday season during the long dark nights of this time of year. Thank you all for sticking with me and wild salmon on this intractable issue. We cannot give up now!

If you prefer to donate by mail:

Pacific Coast Wild Salmon Society
Box 399
Sointula, BC V0N 3E0

Godspeed to us in our endeavor to protect the salmon - who feeds everyone and everything lucky enough to exist in their habitat.

Don't forget to check out my website as well AlexandraMorton.ca

Alex

Hi Noel, This is really great information that you are giving out. We have a product that is called the landing hand, it is the most fish friendly item ever produced. If you fish you should have one. Both Fly and Spin, both Fresh and Salt. It does not remove the slime from the fish and offers a very safe grip for the fisherman so the fish is not flopping around on the rocks. Once a person uses one he will not fish without one. They used this Landing Hand in a hatchery in Washington and had zero mortality. Seth Norman is the original designer of this outstanding product. We are the distributors.

Good Fishing, Jim Teeny

We (Fish and Wildlife Branch) have been pushing anglers to keep their fish in the water (if they plan on releasing them). Washington State implemented a regulation a decade or so ago making it unlawful to remove fish from the water due to the science that’s recently become available which shows that fish lose a percent of survival for every second out of
water after landing – a fish out of water for a minute now has less than a 40% chance of survival! Because so many anglers review your web page and follow the lead of other anglers appearing there, I wondered if you would be willing to help direct them so we can optimize fish survival and angling success in the future?

Apologies for potentially adding yet another item to your plate but I think this one has huge benefits for all if you’re willing.

All the best for the season Noel.

Cheers.

Clean energy provides more jobs than oilsands report says

There has been $24 billion of investment in clean energy in Canada since 2009. (Canadian Press) 

BC, Quebec and Ontario polish Canada’s renewables record, but Ottawa criticized. Renewable energy has experience BIG growth in Canada in the last five years, so much so that employment in the section outstrips employment in the oilsands.

Cast here to read more info about this GOOD NEWS story!

What you need to know about Petronas (Pacific NorthWest LNG) and its impacts on Skeena Salmon.

LNG development in the estuary may threaten Skeena Salmon. All five species of Salmon use the estuary as they transitions from the freshwater of the Skeena River into a saltwater of the Pacific Ocean. Previous studies and recent science have found that the mouth of the river is extremely important habitat for ALL Skeena Salmon.

CFIA exempt from scientific protocol?

Hello, Below is a link to a letter I wrote to the Canadian Food Inspection Agency (CFIA) in response to yet another announcement that there is no ISA virus in British Columbia. ISA virus is a salmon virus in the influenza family that is deadly to salmon and associated with salmon farms.

In their recent declaration, the CFIA fails to tell us what test they used, fails to inform us why the same labs got positives in 2011 and why those results should be ignored, and they fail to address the fact that two out of the three labs they used included a disclaimer with
their test results.

However, ignoring all this they state "This evidence is used to support scientifically based control measures, for the purposes of safe domestic and international trade.” Canada has gained an international reputation for destroying scientific libraries and muzzling scientists.

This has sparked international condemnation and unprecedented response by Canadian scientists.

Now the CFIA is declaring British Columbia ISA virus-free in absence of the most basic scientific protocol.

Please consider writing to the bureaucrats and politicians listed at the end of my blog. If we abandon science completely in Canada we stand lose our health, environment, standard of living, and pretty much everything. Surely there is a way to enjoy the benefits of commerce without entering a new sort of Dark Ages.

Alexandra Morton

For Sale

Telkwa, BC

Bulkley Riverfront Home

Updated Bulkley Riverfront home in Telkwa features 4 bedrooms, 2 baths, and a huge sundeck. Basement has been redone with concrete in-floor heat, large master bedroom, and a very modern bathroom. The bathroom has heated concrete floors, an open-room shower, and a beautiful pedestal bathtub. Main floor has original hardwood flooring, freestanding wood stove, and a large sunroom. Great river and Hudson Bay Mountain view, large treed lot and riverside firepit.

Great Steelhead fishing 40ft from the backdoor or long run 250 yards down, good spot to keep a jet or drift boat. Best time for Steelhead Aug 15 and it is fishable until Dec 31. Also there is Coho, Chinook, Pinks and Trout. Could be yours for $339,000

Contact Noel Gyger noel@noelgyger.ca for more info

For Sale

West Coast of Vancouver Islands, BC

Rogers Fishing Lodge

Owners of this Lodge say they already have over 1000 guests booked for the 2014 season. In total in 2013 they did 1160 guests, so things are already pacing ahead of last year. Certainly a real positive for any potential Buyer to have a turn-key business
Rodgers Fishing Lodge is located on the west coast of Vancouver Island about 90 miles due west of Campbell River in Esperanza Inlet. Rodgers is one of the busiest fishing lodges on the B.C. coast, entertaining over 1000 guests a year. They also enjoy one of the longest seasons on the coast, operating 19 weeks in 2013.

This will be their 31st year in the Sport Fishing business and their 20th year in Esperanza Inlet. Rodgers has shown a remarkable rate of growth over the past 3 years due mainly to an aggressive, innovative and successful marketing programme. Their gross revenue has more than doubled since 2010 and 2014 looks to be another banner year with over 550 guests already booked.

The Lodge has a location second to none as it is ideally situated to take advantage of some of the most outstanding fishing opportunities on the BC coast for Salmon, Halibut, Bottom Fish and Tuna. The addition of Tuna fishing this year will add a new dimension to the business and will add increased revenue to the months of August and September. The Tuna fishery is going to be a huge breakthrough in the future for West Coast fishing lodges. Rodgers Lodge is perfectly positioned to take advantage of it. Historically, the Tuna in their migration pattern will follow the warm water temperatures that occur along the Continental Shelf. In Rodgers Lodge’s location the Continental Shelf is just 12 to 15 miles offshore as opposed to 50 miles offshore for places like Tofino and Bamfield.
Black Bear and Bald Eagles are regularly seen by the lodge. They have the largest colonies of Sea Otters on the coast and the Gray, Orca and Humpback Whales pass by on their way to and from the Bering Sea.

The owners love the business and wish that they were 30 years younger. However, they feel that it is now time to turn the reins over to someone who shares the same passion for the outdoors and who is looking for a wonderful rewarding lifestyle.

Asking price $1,199,000

Please contact Noel Gyger if you are interested.
