Skeena River

Fri Feb 28/14 6:24am

Water in very good condition...but lots of ice...some places totally across the whole river, so you have to fish the open spots. Fishing for Steelhead and Trout is GOOD...but...you got to know where and how to fish for em. You may want to consider hiring a guide for this, if so [contact me](#) anytime. **Caution:** there is ice along edges so please be careful walking on it. Most all of the summer run Steelhead have gone through the Terrace area and are way up in their trib rivers by now. Trout fishing is the only option now.

Kalum River:

I have a report of really good winter Steelhead fishing both lower and upper ends. The water is in good shape. With clear sky; **Theory:** when this happens the fish are spooky and this seems to be the case now. Fishing is always better under cloudy skies. **Gibbs #45** Lure works pretty good to catch Steelhead even under these conditions. Water is dropping so be careful if you take your jet boat. Might be time for the raft or drift-boat. Check out this article I wrote; a few years ago but still relevant today:

Drifting in Paradise - The upper Kalum River - by Noel Gyger

http://www.sportfishingbc.com/articles/freshwater_fishing/kalum.htm

Lakelse River:

I have a report that water is high and fishing is poor. **Tip:** Fly-fishing egg pattern flies work the best, also, the brighter the egg fly the better. **Tip:** Float fishing corkies (painted cork balls in various sizes) and a little bit of white wool works well. The bright red or orange ones are favored.

Zymoetz (Copper) River:

A fresh run of Steelhead has come in the lower end...and fishing for them has been pretty good. Water is in good condition. **Note:** Zone Fishing closure. **Reg: No Fishing** above the sign at the transmission line crossing (below Zymoetz Canyon), Jan 1 - June 15. With this closure it leaves only a small section of the lower river to fish for Steelhead. The water is high and borderline fishable. When wet fly fishing give the Steelhead a chance to react when the fly comes drifting by. Dry fly works pretty good too. And for conventional here is a **Tip:** Float fishing the Pink Worm works very well in this river. Need a guide for 2014 in either the Class one or Class two section [contact me](#) anytime.

Recommended Fly Fishing Gear:

Courtesy Chad Black [Nicholas Dean Outdoors](#)

In the low water conditions of early April, we generally used light sink tips to cover the shallow riffles and tailouts where Steelhead were holding. Type 3 and Type 6 tips were generally all that was needed for most conditions. With the higher flows of late Spring, and in particular on the tributary rivers, we've also been using Rio's MOW tips in a variety of weights and lengths to get the fly down to the fish. The Heavy MOW tips, made of T-14 material, have been particularly useful, in lengths of 5, 7.5, 10 and 12.5 ft.

As with March, best colours have been pink, black, blue and orange. When fishing the Skeena and its tribs, larger flies from 2.5" to 4" in length have been most productive. Smaller flies in a variety of weights in the 1" to 2.5" range have worked the best on coastal rivers.

When targeting Steelhead, we've been using rods in the 12.5' to 13.5' ft range, for a 7 or 8 weight line on the larger rivers. Our personal favourites for this fishing include the 7126 **Sage TCX** and the 8139 **Loomis Dredger**. When targeting Chinook specifically, we've been using heavier 9 and 10 weight rods in the 13' to 15' range. Single hand rods and switch rods have gotten the nod on the coastal rivers. In particular, I had a chance to fish a 8116 **Sage One** rod and can confirm that it's a very good rod that's ideally suited to the coast!

Rods, Reels, Lines: For Steelhead - Spey rods in the 12' to 14' range, with a **Skagit** head to match. A 7126 TCX paired with a 500 grain **Skagit Flight** and **Loomis 8139 Dredger** with a 525 grain **Skagit** are excellent choices. A good quality disc or cork drag reel (e.g. **Islander** and **Ross**) with a minimum of 150 yards of 30 lb backing. For Spring Chinook Salmon, same as above, except with heavier gear - 9 weight minimum, 10 weight better.

Sink Tips and Tippet: A 15' Type III and 15' Type VI for most shallow water applications, and a variety of **MOW** tips - medium (T-11) and heavy (T-14) for deeper and/or heavier water. Always 15 lb **Maxima Ultragreen** for Steelhead. Increase tippet to 20 lb **Maxima Ultragreen** if targeting Spring Chinook.

Flies: **Idylwilde** String Leech, Bunny Tube, Marabou Tube and Popsickle, in shrimp pink, cerise, black, blue and orange.

Here's our latest addition to the fleet for 2014. That's right we are now operating 2 - 30 foot Kingfisher guide boats. This one is tricked out with all the same options and quality gear as our first boat. Luxury fishing on the West Coast of Haida Gwaii just got even better!

Some of the best Chinook fishing is in the early season...**BOOK NOW**...don't miss out!

Here's a video for all you "Butt heads" out there. Halibut fishing was awesome in 2013! Had a lot of fun releasing some big ones and sending guests home with some nice eating ones too. And yes, fresh Halibut is on the menu in 2014.

Reserve Your Dates for 2014

The 2014 fishing season is coming fast! We are already over 50% booked and prime dates are going quickly. If you're thinking about taking the family on a great fishing adventure or looking for a hard core fishing trip with the boys next summer, Avid Sportfishing's all inclusive trips have all bases covered. Round trip airfare from Vancouver, exclusive beachfront lodging and amazing meals combined with BC's best Chinook salmon fishing and experienced guides make for a "Top Notch" fishing trip that is second to none. Some exciting news for groups that require 2 boats (6 to 8 guests) is the addition of another 30 foot Kingfisher guide boat. This allows us to offer a truly unique experience with 2 of the nicest, most comfortable, most seaworthy and just plain "fishy" boats in all of Haida Gwaii/Queen Charlotte Islands. Predictions for 2014 Chinook (King) salmon runs look very good with more 4 and 5 year old fish returning meaning bigger average size than in 2013.

Please contact us to discuss dates and join Avid Sportfishing for another season of great fishing, and good times on the West Coast of Haida Gwaii in 2014!

Noel Gyger - WEEKLY FISHING REPORT dated January 14 – January 21, 2007

Dear Fishing Friends:

We finally had a break in the cold weather so river fishing can start again. The snow pack in the mountains is way above average this winter. Lots of snow on the ground also, making it difficult to use boats. Anyway, getting to the river on foot and fishing from the bank is always possible. Cast to the Kalum River report below.

If I can be of service to find you the “best” guided fishing adventure let me know. How about booking the season opener on March 15 for wild Steelhead on the Kalum River? If you can’t wait that long how about booking a saltwater trip now out of Prince Rupert for winter springs, oh, and how about a feed of fresh Dungeness crab?

Be sure to check out my “new” website at www.noelgyger.ca for more info on my history, Quality Waters Strategy, special guided fishing trips, video clips (all the clips are working now), scenic river photos, wildlife photos and others, comments from past guests, informational articles and archived fishing reports from 1996 through 2002. I hope it meets with your entire satisfaction.

CURRENT REPORT and summary:

Access to rivers is quite difficult with all the snow we have.

Type of fish caught: Steelhead

Thank you for using barbless hooks.

Fishing this week: POOR___FAIR___GOOD___EXCELLENT ___*

LARGEST FISH OF THE WEEK: Specie: (estimate) 20- pound Steelhead Where: Kalum River
Angler: Randy Marshall

Weather reports via telephone...Environment Canada taped messages constantly updated, giving current conditions and three day forecasts. Terrace 250-635-4192 Kitimat 250-632-7864 Prince Rupert 250-627-1155 Smithers 250-847-1958.

Water conditions...good on all rivers, low and clean

Snow conditions...average three feet on the ground

Skeena River...with the warmer day time temperatures fishing has started again.

Kalum River...has an "excellent" run of Steelhead. These fish are wintering over and will spawn in late spring. The water is low and clean. This is a Classified River year round and can be guided from March 15 through October 15 only. The Steelhead record is 32-pounds. To see a photo of this fish cast to:
<http://noelgyger.ca/records/Record003.jpg>

...Jan 17, 2007 Randy Marshall had a good day Steelhead fishing and was 6 for 7 (hooked a total of 7 and landed 6). Greg Buck was 3 for 4 and their friend was 1 for 1. As you may know both Randy and Greg are guides. They were doing a little fishing for themselves in the off season.

Kitimat River...has spring run Steelhead. Fishing for them should start in March.

Kasiks River...fishing for Coho will start again next fall. This is the river where a 27-pound record Coho was landed.

Zymoetz (Copper) River...is closed now for angling (as of December 31, 2006 above the lower canyon) to protect the "wintering over" wild Steelhead. Winter fishing is still available on the lower end below the canyon. I have a report of a nice fish landed with a fly last week.

Ocean fishing Prince Rupert...good fishing for winter springs is now happening in Prince Rupert. If you want to do this let me know. A summary of what is available year round can be read in the Archived Fishing Report dated April 13, 1997.

Ocean fishing Kitimat Douglas Channel...report coming soon.

Note: additional rivers will be added "in season" when the fishing begins in the spring.

Area River Records...Chinook Salmon: Skeena River, 92.5-pounds; Kalum River, 85-pounds; Kitimat River, 74-pounds; Steelhead: Skeena River, 45-pounds; Coho Salmon: Skeena River, 27-pounds.

Catch & Release formula...Chinook: girth squared x length x 1.54 divided by 1000. Steelhead: Steelhead: girth squared x length x 1.33 divided by 1000 (inches)

GOOD LUCK and GOOD FISHING!

Yours sincerely,

Noel Gyger

Crude oil proposals create 'very high' B.C. coast risk

An assessment commissioned by Transport Canada said the Northern Gateway marine route through the Douglas Channel would raise the current 'very low' risk of a near-shore oil spill in the area to a 'very high' risk.

Hello, Just days after we learned the salmon farming industry got a green-light to expand in BC, Marine Harvest was listed on the New York Stock Exchange, ringing the bell on January 28. These fish farms are receiving federal licences that allow the company vet to make the decision whether to use smolts infected with viruses.

In my blog, I make an appeal.

Prime Minister Opens Door to Fish Farm Expansion in BC

Hello, It is with disbelief and horror that I write to tell you I just learned the Prime Minister of Canada has quietly opened the door to a major expansion of B.C.fish farms sector despite warnings by the 2012 Cohen Commission about the effects of net-based farms on wild salmon. No press release, just snuck this out the door.

[Cast here](#) to read the full horror story

98% of salmon farms in BC are owned by Norwegian companies - this is not about the people of BC. I think the Prime Minister of Canada is suffering from mental illness. This is not Canada.

I am writing to ask you to respond to this, stand up and make it clear to the markets that pay the three Norwegian companies in BC for these Atlantic salmon that this is not OK with you.

I just received a press release asking me to stand in front of a Superstore, any Superstore this Saturday and educate the public about farmed salmon.

http://alexandramorton.typepad.com/10_reasons_not_to_eat_far/

And so I am passing this media advisory on to you. If it does not come through please visit my blog.

I can promise you this - we are facing something very, very big. This requires everyone who understands to speak to the markets who fuel this madness

I ask that you show up, be peaceful in honour of who we are and don't let this happen to the coast of British Columbia.

CFIA finally answers - 2013 in review

Hello, In the final weeks of 2013, I finally heard back from the CFIA. They never did retest my samples. The ramifications of this have not been fully assessed.

Whole Foods sells Norwegian farmed salmon, using guidelines that exceed WHO levels for some toxins

In a short video I recap an incredible year and give you an idea of where I am headed.

West Coast of Vancouver Islands, BC Rogers Fishing Lodge

Owners of this Lodge say they already have over 1000 guests booked for the 2014 season. In total in 2013 they did 1160 guests, so things are already pacing ahead of last year. Certainly a real positive for any potential [Buyer to have a turn-key business](#)

Rodgers Fishing Lodge is located on the west coast of Vancouver Island about 90 miles due west of Campbell River in Esperanza Inlet. Rodgers is one of the busiest fishing lodges on the B.C. coast, entertaining over 1000 guests a year. They also enjoy one of the longest seasons on the coast, operating 19 weeks in 2013.

This will be their 31st year in the Sport Fishing business and their 20th year in Esperanza Inlet. Rodgers has shown a remarkable rate of growth over the past 3 years due mainly to an aggressive, innovative and successful marketing programme. Their gross revenue has more than doubled since 2010 and 2014 looks to be another banner year with over 550 guests already booked.

The Lodge has a location second to none as it is ideally situated to take advantage of some of the most outstanding fishing opportunities on the BC coast for Salmon, Halibut, Bottom Fish and Tuna. The addition of Tuna fishing this year will add a new dimension to the business and will add increased revenue to the months of August and September. The Tuna fishery is going to be a huge breakthrough in the future for West Coast fishing lodges. Rodgers Lodge is perfectly positioned to take advantage of it. Historically, the Tuna in their migration pattern will follow the warm water temperatures that occur along the Continental Shelf. In Rodgers Lodge's location the Continental Shelf is just 12 to 15 miles offshore as opposed to 50 miles offshore for places like Tofino and Bamfield.

Black Bear and Bald Eagles are regularly seen by the lodge. They have the largest colonies of Sea Otters on the coast and the Gray, Orca and Humpback Whales pass by on their way to and from the Bering Sea.

The owners love the business and wish that they were 30 years younger. However, they feel that it is now time to turn the reins over to someone who shares the same passion for the outdoors and who is looking for a wonderful rewarding lifestyle.
